The Class of Nineteen Hundred and Seventy-Seven of West Bridgewater High School takes pride in dedicating this, our yearbook, to Mrs. Patricia Murphy. We would like to thank you for all your help and understanding in dealing with our Class and its problems, and for helping us in all our activities. You've not only impressed us as a dedicated faculty member, but as a true friend to the Class of 1977. For these reasons, we proudly and sincerely dedicate our 1977 CLIMBER to you.

THE MANY MOODS OF MRS. MURPHY

In Memoriam . . .

LYNDA HARVEY . . .

She shed her love upon us
Though she was here for just a while,
Lynda melted many hearts
With her glowing angel smile.

She laughed at pain and sorrow
And cheered those up who were down,
And the only hat she could ever wear,
Would be a gem-filled crown.

Though we may forget all our friends
That we've had throughout school years,
We'll remember Lynda most
With laughter, not with tears.

ON THE ROAD TO FIND OUT

So on and on I go the seconds tick the time out
What I could find out
I go on the road with the aim to clear my mind out.
When I hit the rowdie and many kinds I met there
Many stories told me of the way to get there.

So on and on I go the seconds tick the time out
There's so much left to know and I'm ON THE ROAD TO FIND OUT...

Well in the end I'll know, but on the way I wonder
Through descending snow, through the frost and thunder.
Well I listen to the wind come howl telling me I have to hurry
I listen to the robin's song saying not to worry.

So on and on I go the second tick the time out
There's so much left to know and I'm ON THE ROAD TO FIND OUT...

Then I found myself alone hoping someone would miss me
Thinking about my home and the last woman to kiss me.
Well sometimes ya have to moan, when nothing seems to suit ya
But nevertheless ya know you're locked towards the future.

So on and on I go the seconds tick the time out
There's so much left to know and I'm ON THE ROAD TO FIND OUT...

Then I found my head one day when I wasn't even trying
And here I have to say cause there is no use in lying.
Yes, the answer lies within, so why not take and look now
Kick out the devil's sin, pick up a Good Book now...

DONALD A. FISHER
SUPERINTENDENT OF SCHOOLS

To The Class Of 1977:

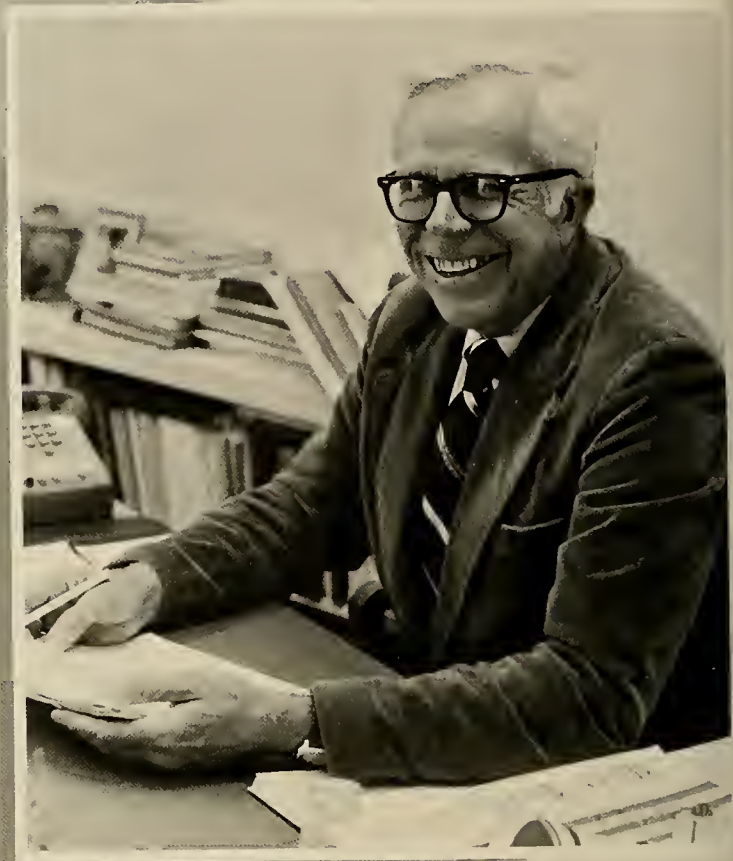

As I wrote the above salutation the word "Clase" caught my eye. In addition to designating a group of people it has a special meaning in our American slang. In that context it often means someone or a group has a distinctive quality when compared with other pereons or groups. For example World Champione almost always have "Class". So it is with you as a group and as individuale, conduct yourselves so that you too have that extra something that is called "Class".

You're going out at a time when our Nation, and the World, are faced with serious and far-reaching problems. Severe as they seem, most of them will be resolved through hard work and faith. Perhaps it will help to remember Carl Sandburg's fine worde;

"It's going to come out all right --
do you know?
The eun, the birds, the grass --
they know
They get along --
and we'll get along."

Good luck, thank you for the many fine things you've done for your School, and may God Bless You with good health.

HIGH SCHOOL ADMINISTRATION

To The Members Of The Class Of 1977!

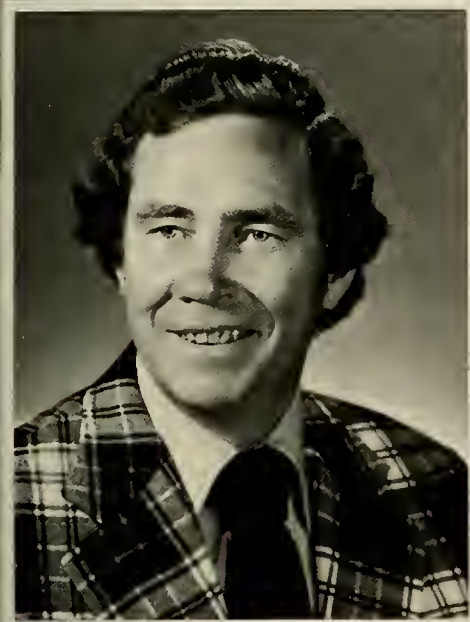

Congratulations! In early June as part of your graduation exercises you will be presented a diploma. To you and to the many who observe this ceremony, this significant act will have a different meaning. To you it is both symbolic and a verification that you have achieved a competency in various skills and in a sequence of experiences. By design these experiences and acquired skills should make your transition into full adulthood easier. The possession of a high school diploma does not guarantee instant success but it does provide you with the opportunity to build upon past experiences which in turn may lead to success.

It is hoped that the social and educational experiences that you have had while in the West Bridgewater Public Schools will be memorable and beneficial. I wish to express my sincere appreciation for the effort each one of you has extended for your classmates and your school. You can point to your accomplishments and your contributions with pride.

I offer my sincerest congratulations and wish you the greatest of success in your future endeavors.

Yours truly,

S. Erick Benson
Principal

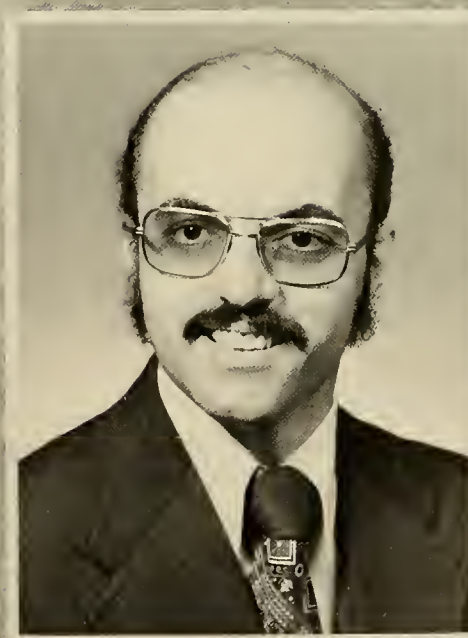

To The Class Of 1977

I have enjoyed my association with you during the past three years at West Bridgewater. Our school has attempted to assist you in becoming reasonable and responsible individuals. Whether we have succeeded, only time will tell; but in today's world, one must possess these qualities in order to survive.

Your public school years have ended. You will now go out into the world either to further your education or to enter the job market.

I wish you success and happiness in your endeavors.

"In the beginning was the word," and the word is still amongst us the distinguishing mark of man. To help our students to understand the word in its best uses---literature; to parry it in its worst uses---propoganda; to create new worlds with the word or to enlarge the inner-world--- through reading and writing; to grasp the hand of our fellow man in word and play--- through speaking and drama: These are the purposes of education in the mother tongue among all free and civilized societies, and so it is our aim in the schools of West Bridge- water. "Our fair discourse hath been as sugar making the hard way sweet and delectable." Richard II (II,III). "The pleasure and excite- ment of words is that they are living and gen- erating things." The Social Studies faculty is striving to impress upon its students the important interrelationship between social studies, the sciences, and the humanities. The common factor among the many academic disciplines found under the broad term social studies is the study of human beings, individually or in groups, at one point in time, or over a period of time. The challenge of America's third century lies in adapting our studies to meet the needs of all mankind.
